Chapter 399: New Troops Created by Sung Jin-Woo

As the Divine Triad continued to reign over their multiversal empire, Sung Jin-Woo's power and ingenuity led him to create an even greater force: an army that would surpass the previous legions in strength, versatility, and dominance. These new soldiers were born from the very essence of chaos, shadow, light, and void, each one a masterpiece of his divine crafting. Here are the new troops he created, each more fearsome and formidable than the last.

---

1. Eclipsian Vanguard

Essence: Shadow warriors forged from the remains of fallen gods.

Features:

Wield void-forged glaives and shadow shields that can tear through divine armor.

Immune to all forms of divine energy and capable of phasing through dimensions at will.

Number: 10 billion.

---

2. Draconian Sentinels

Essence: Dragonkin infused with the celestial light and shadow energy.

Features:

Wings of black fire, and scales harder than divine adamantine.

Armed with blazing lances and wearing shadow-forged armor for defense and power.

Number: 1 trillion.

---

3. Aether Knights

Essence: Soldiers born from pure aether energy, embodying light and balance.

Features:

Radiate a calming aura that weakens enemies and strengthens allies.

Armed with aether swords capable of cutting through space and time itself.

Number: 100 million.

---

4. Stellar Golems

Essence: Massive constructs powered by fragments of stars.

Features:

Towering beings of immense strength and durability.

Capable of emitting stellar beams that can vaporize entire armies.

Number: 50 million.

---

5. Umbral Phantoms

Essence: Ghost-like entities, capable of infiltrating and disrupting enemy forces.

Features:

Invisible to all but divine senses.

Able to possess enemies, turning them into allies or puppets.

Number: 500 billion.

---

6. Infernal Shadow Beasts

Essence: Ferocious creatures formed from both shadow and fire.

Features:

Immensely fast and agile, capable of tearing through divine armor.

Breathe black flames that consume both body and soul.

Number: 10 trillion.

---

7. Celestial Seraphim

Essence: Six-winged angelic beings forged from primordial light and shadow.

Features:

Masters of divine magic, powerful in combat and versatile.

Emit purifying rays that destroy corruption and heal allies in battle.

Number: 1 billion.

---

8. Oblivion Reavers

Essence: Assassins born from pure shadow and chaos energy.

Features:

Silent and undetectable, capable of eliminating even divine beings.

Dual-wield Void Daggers that bypass immortality and strike directly at the soul.

Number: 500 trillion.

---

9. Starlight Guardians

Essence: Celestial warriors composed of starlight and shadow.

Features:

Armed with Solar Spears that burn with an eternal flame capable of dispelling darkness.

Radiate an aura that heals allies and bolsters the light.

Number: 200 billion.

---

10. Abyssal Leviathans

Essence: Massive sea creatures created to patrol the oceanic realms.

Features:

Capable of swallowing entire fleets.

Emit sonic roars that collapse dimensions and send shockwaves through realms.

Number: 10 million.

---

11. Chrono Sentinels

Essence: Time-manipulating entities tasked with guarding the flow of time.

Features:

Equipped with Temporal Blades that can freeze or rewind time.

Immune to temporal paradoxes, able to exist outside the normal constraints of time.

Number: 50 million.

---

12. Flameborn Drakes

Essence: Dragonkin infused with the essence of primordial fire.

Features:

Breathe flames hot enough to ignite stars.

Scales that deflect divine energy and physical attacks.

Number: 1 trillion.

---

13. Voidwalkers

Essence: Beings capable of traversing all dimensions and realms.

Features:

Wield Warping Scythes that sever dimensional ties, allowing instant travel between realms.

Travel instantaneously across the multiverse.

Number: 10 trillion.

---

14. Ethereal Arbiters

Essence: Judges of creation, ensuring balance and order across all realms.

Features:

Emit beams of judgment that separate life from death.

Have the ability to rewrite divine laws temporarily, adjusting the very fabric of reality.

Number: 1 billion.

---

15. Shadow Colossi

Essence: Towering giants crafted from the cores of destroyed realms.

Features:

Their footsteps shake worlds and break continents with every step they take.

Their fists are imbued with Absolute Energy, capable of eradicating armies in a single blow.

Number: 100 million.

These new troops, crafted by Sung Jin-Woo, represented the next stage in his divine ascent. Each unit was an embodiment of his boundless creativity, power, and control over the forces of shadow, light, fire, time, and space. Together, these troops ensured that no enemy—no matter how formidable—would be able to challenge the Divine Triad's reign across the multiverse.

The future looked bright for the Divine Triad, as their army continued to grow in both size and power, ready to face whatever threats might emerge across the infinite planes of existence.
